Dear Sir:

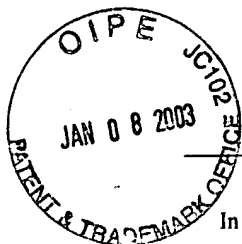

In response to the Office Action mailed October 2, 2002, Applicant respectfully submits the following amendments and comments.

IN THE CLAIMS:

Please amend Claims 12 and 20 as follows:

12. (Amended) A method of operating a cordless communication system comprising a mobile terminal of a public mobile communication system and having a base station which is connectable to a public fixed network and compatible at an air interface with the mobile communication system that has at least one authentication function, comprising:

reading and writing from and to, respectively, at least one identification module through a read and write unit of the base station, wherein sections of data of the
